SUMMARY

Computer Science undergraduate at Guru Nanak Dev University with hands-on experience in web development, Python, Java web technologies, Git/GitHub and AI development workflows. Open Source Contributor at GirlScript Summer of Code 2026 in the Open Source & AI Agents track. Interested in software development, cybersecurity, artificial intelligence, open source and building practical technology products. Strong foundation in programming, problem solving, DSA and modern web development.

EDUCATION

Guru Nanak Dev University <i>Bachelor of Technology (B.Tech) – Computer Science Engineering</i>	2025 – 2029 <i>Amritsar, Punjab</i>
---	---

EXPERIENCE

GirlScript Summer of Code (GSSoC'26) <i>Open Source Contributor – Open Source & AI Agents</i>	2026 <i>Remote</i>
---	------------------------------

- Contributing to real-world open-source projects while developing skills in Git, collaboration, software development and AI-agent workflows.

Aptech Learning <i>Web Development & Java Web Application Development</i>	2024 – Present <i>Amritsar</i>
---	--

- Completed practical training in Python-based web development and Smart Pro Java Web Application Development.

PROJECTS

NetProbe Port Scanner	GitHub
------------------------------	--------

- Built a Python cybersecurity tool using socket programming to identify open ports and common network services, strengthening TCP/IP and security fundamentals.

ShikshaFlow – Active Learning Platform	Live
---	------

- Developed an EdTech platform focused on project-based learning, collaboration, peer review and mentorship as part of a hackathon project.

AuraSense	Live
------------------	------

- Developed an interactive modern web project exploring intelligent user experiences and contemporary frontend development.

GNDU Attendance System	Academic Project
-------------------------------	------------------

- Designed a student-focused attendance management solution to simplify attendance tracking and improve accessibility.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript **Web:** HTML, CSS, JavaScript, React.js

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Problem Solving

Cybersecurity: TCP/IP, Socket Programming, Port Scanning, Network Security Fundamentals

Tools: Git, GitHub, VS Code, Vercel, Linux

AI: AI Fundamentals, AI Agents, Claude Development Workflows

ACHIEVEMENTS & LEADERSHIP

- GSSoC'26 Contributor:** Selected for the Open Source & AI Agents track.
- Hackathons:** Participated in national and university-level hackathons focused on EdTech, software development and innovation.
- ISRO National Space Day Hackathon 2025:** Participated as a Guru Nanak Dev University representative.
- Merge Conflict 48-Hour National Hackathon 2026:** Participated in an intensive software development challenge.
- Campus Leadership:** Active in student technology communities, open-source initiatives and peer learning.

CERTIFICATIONS

Anthropic: Claude 101 • Claude Code 101 • Claude Code in Action • Claude Platform 101 • Building with the Claude API • AI Fluency for Builders • AI Fluency Framework & Foundations • Introduction to Claude Cowork

Aptech Learning: Web Development Using Python • Smart Pro Java Web Application Development

ADDITIONAL

Interests: Artificial Intelligence, Cybersecurity, Open Source, Web Development, Hackathons, DSA, Technology Content Creation, Cricket
